APPROVAL OF STATE ENGINEER
heretofore granted under Permit 17541 is issued subject to the terms and conditions imposed in said Permit 17541 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued as a supplement right to Carson River water rights except for 1.7 acres in the SW½ SW½; 4.38 acres in the NW½ SW¼; 32.14 acres in the SE½ NE½; 1.61 acres in the NW½ NE½; and 17.06 acres in the NE½ NE½ all in Section 2, T.13N., R.19E., M.D.B.&M.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to
exceed
acre-feet per season.
Work must be prosecuted with reasonable diligence and be completed on or before
Proof of completion of work shall be filed before February 28, 1992
Application of water to beneficial use shall be made on or before January 29, 1994
Proof of the application of water to beneficial use shall be filed on or before February 28, 1994

APPROVAL OF STATE ENGINEER
This is to certify I have examined the foregoing application, and do hereby grant the same, subject to the following
limitations and conditions:
This permit to change the place of use of the waters of an underground source as heretofore granted under Permit 17541 is issued subject to the terms and conditions imposed in said Permit 17541 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. This permit is issued as a supplement right to Carson River water rights except for 1.7 acres in the SW½ SW½; 4.38 acres in the NW½ SW½; 32.14 acres in the SE½NE½; and 17.06 acres in the NE½ NE½ all in Section 2, T.13N., R.19E. M.D.B.&M. The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to
exceed 2.5 cubic feet per second, but not to exceed 907.22 acre
/ SSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSSS
feet per season.
Work must be prosecuted with reasonable diligence and be completed on or beforeJanuary 29, 1992
Proof of completion of work shall be filed before February 28, 1992
Application of water to beneficial use shall be made on or before
Proof of the application of water to beneficial use shall be filed on or before February 28, 1994
